Ultra-High Definition

AL670 plays 1920x1080p high resolution video smoothly featuring six times the resolution in details compared with DVD. Even the most finicky watchers will leave no criticism thanks to the perfect image quality, saturated colors and vivid details.

Rich and Natural Colors	Smooth and Flowing Motion Pictures	Bright Images and Hues
Apacer AL670 smooth color graduation	Apacer AL670 natural and flowing image motion	Apacer AL670 brilliant images crispness and hues
Others fuzzy color graduation	Others Image motion with abrupt edging	Others tainted hues

High Fidelity Audio

To build a perfect digital theater environment, AL670 is equipped with evolutionary audio ability that includes the DTS surrounding sound technology of Blue-ray movies, it can automatically decode the DTS audio or output to the amplifier to enjoy the surrounding sound with virtual reality.

Multi-format Support

AL670 supports the most popular file formats comparing to current available media players in the market! All the popular file formats can be played back without any difficulty, such as m2ts, MKV, H.264, TS and ISO files for 1080P, RMVB and RM for 720P, as well as traditional AVI and MPG files.

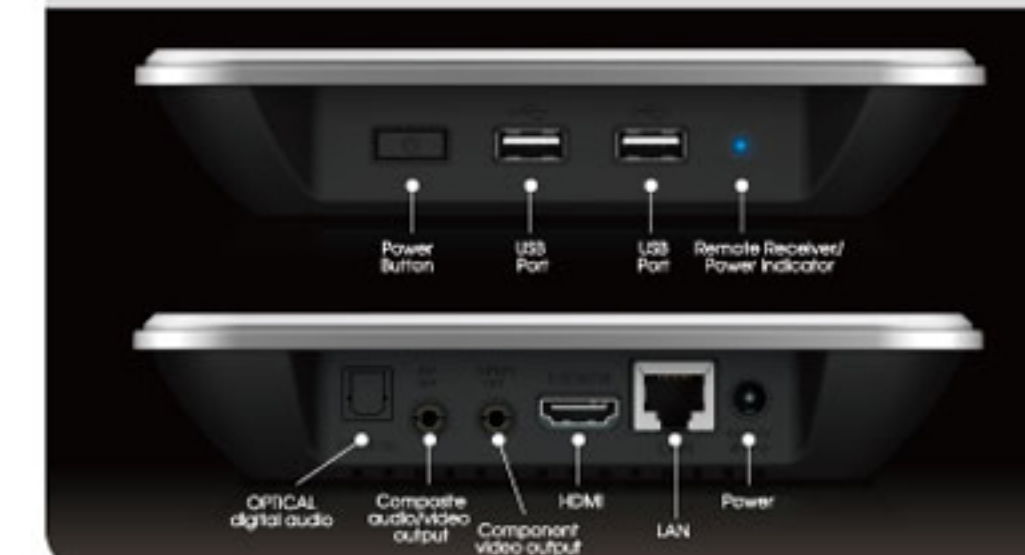

MOVIE
MPEG-1, MPEG-2, MPEG-4, WMV, FLV, MKV, RM/RMVB, TS, m2ts, mts, TP, H.264, MOV, VC-1

PHOTO
JPEG, BMP, GIF, TIF, PNG

MUSIC
MP3, WMA, WAV, LPCM/PCM, AAC, FLAC, OGG, Dolby Digital AC3, DTS

Multiple Outputs/Inputs

AL670 supports a variety of I/O ports. For output, it provides component video output, AV output, HDMI output and Optical output. For input, besides the existing dual USB ports for connecting with USB drives and external Hard Disk, there's network connection as well for direct access to network computers.

Multiple Connections

Since AL670 supports NAS function, that makes it not only play media files from network computer, user also can play the media file from the attached storage with media player on user's network computer. NAS function is more and more commonly used nowadays because it enables user enjoying media files everywhere within the network.

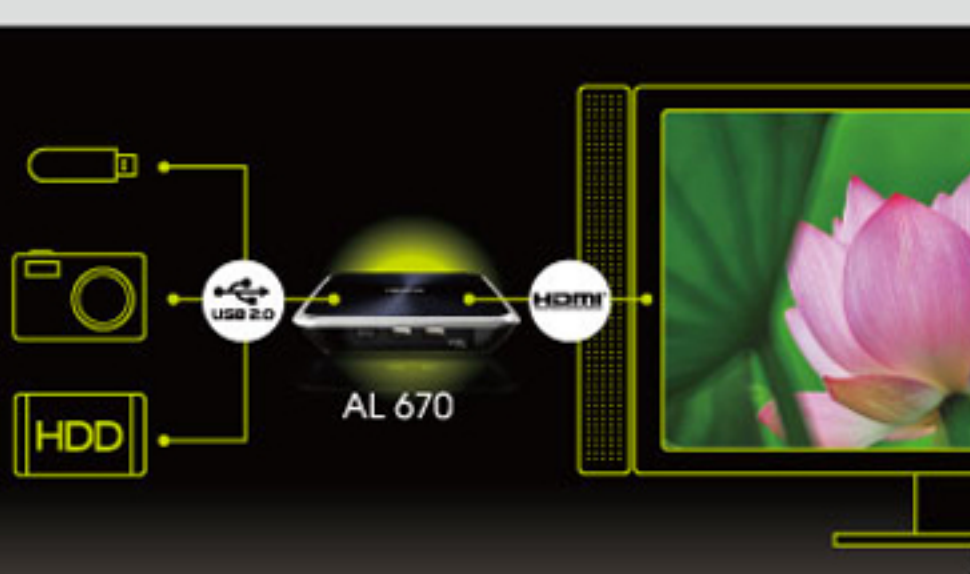

BT Download

AL670's new-embedded BitTorrent download function can collect unlimited media resources from Internet.

Easy Installation

User can simply plug the USB Drive or External Hard Drive into the Apacer AL670 media player and then connect again AL670 with television via HDMI cable or Component Video cable or AV cable. Apacer AL670 is so easy to use and install!

Joyful Sharing

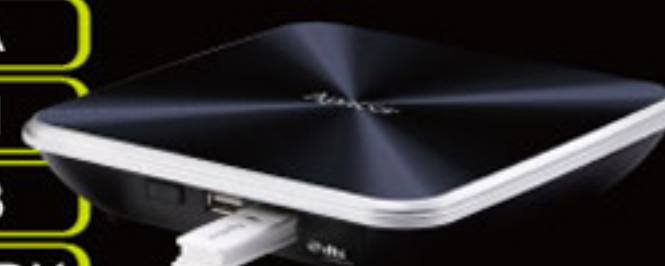

User could enjoy an entirely wonderful visual experience while playing digital photos or HD video on the wide TV screen via AL670. Moreover the photos can be played back with a variety of slideshow functions and sound effects- It's great for family sharing.

Multi-Subtitle Format Support

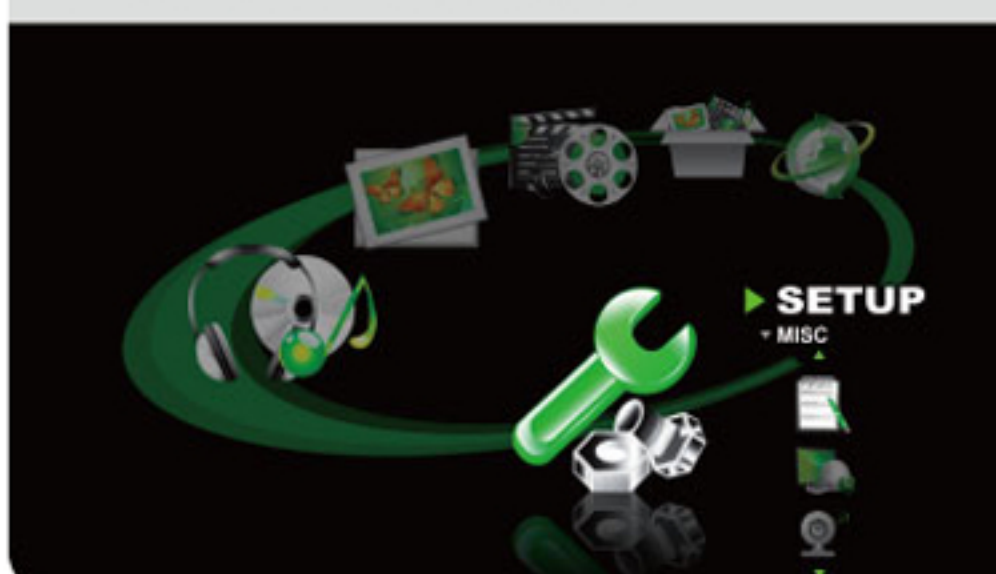

AL670 powerfully supports SRT, SSA, SUB, SMI and SUB+IDX subtitle formats. User will not miss the subtitle display while playing the video.

- SRT
- SSA
- SMI
- SUB
- SUB+IDX

User-friendly Interface

The new interface of AL670 is designed to meet user-specific needs. With graphic options, users can select the menu fluently with human intuition. And by pushing the hotkey button on the remote control, user can directly go to: "Movie", "Music" or "Photo" to enjoy the quick start of media life.

Stylish Look

The appearance of AL670 inherits the simple, elegant aesthetic design as AL660, specially the top cover of AL670 is a metallic plate finished with futuristic and wave-like lines. It just looks like a piece of artwork by interplay of the light and shadow in your novel home.
